

# Researcher Agreement for HathiTrust Dataset Including Google-Digitized Materials

**Each participating researcher must sign below.**

By my signature, I acknowledge and confirm the following:

1. I am receiving texts from HathiTrust at the University of Michigan, some of which are made available under a Distribution Agreement between the primary institution for this project (the home institution of Researcher 1), Yale Univ., and Google.
2. I have read the Google Distribution Agreement and agree to abide by its terms, including its restrictions on copying, redistribution, or hosting.
3. I agree to use the data only in accordance with the corresponding research proposal to this agreement, as submitted to HathiTrust at the University of Michigan.
4. I understand that I will be granted access only to volumes that HathiTrust has determined to be in the public domain and volumes that have been licensed for access under Creative Commons licensing. Some of the texts I receive may be determined at a later date to be in copyright. I agree to delete those volumes upon notification from HathiTrust at the University of Michigan. I agree to confirm deletion of those volumes to HathiTrust at the University of Michigan at [feedback@issues.hathitrust.org](mailto:feedback@issues.hathitrust.org).
5. I understand that rsync access is provided only for the duration of the research project described in the corresponding research proposal to this agreement. I agree that I will delete the dataset prior to the end of that time period.
6. I agree I will delete the dataset at any time upon HathiTrust's specific request.
7. I understand that if the primary researcher (Researcher 1) below is entitled to broader access to data than some or all of the other Researchers below, then the data will be rsynced only to the servers under the control of Researcher 1 at the primary institution, the other Researchers will not be granted rsync access, and the data will not be moved or copied elsewhere. For example, if Researcher 1 below is affiliated with an institution located in the United States, and any other Researcher below is affiliated with an institution that is not located in the United States, then only Researcher 1 will receive the data and maintain it locally.
8. I understand that if Researcher 1 below is affiliated with an institution that has signed the Google Distribution Agreement, and any other Researcher below is affiliated with an institution that has not signed the Google Distribution agreement, then only Researcher 1 will receive the data and maintain it locally.
9. I understand that if the scope or nature of my research, as described in the attached research proposal, changes, or if the physical address or institutional affiliation of any of the Researchers below changes, I must notify HathiTrust at the University of Michigan, and the terms of this agreement may change.

*Researcher 1 (the responsible permanent full-time faculty or staff member)*
